EXPORT CABLE ROUTE

“Normand Pacific” – Trenching Trials

All Mariners are advised that the vessel “Normand Pacific” shall be carrying subsea trials of the onboard SeaRex trencher which shall consist of launch and recovery of the trencher onto the seabed and the performance of short trials along the export cable route as per the below coordinates:

Table 1 Coordinates: : The trials will be undertaken within the exclusion box coordinates shown below and on the following page map inserts. The following coordinates provides the exclusion zone(s) as various “boxes” (Fishing Gear 500m clearance is always required from the vessel undertaking the trials so the exclusion box coordinates ensure that fishing gear will always remain outside of these areas during the trial operations programme dates in this NtM).
