

THINGS I'VE LEARNT IN THE PAST YEAR

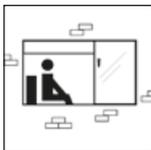

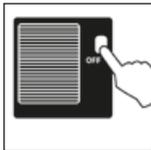

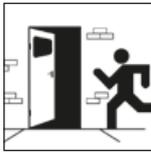

FOR YOUR INFORMATION

All of the companies operating on the major industrial sites on Teesside take emergency response and safety very seriously, with companies working very closely together. Everyone is firmly committed to a policy which ensures the health and safety of employees, neighbours and customers, as well as everyone associated with our operations.

There are well established and regularly reviewed emergency plans which have been developed jointly with all the emergency services and these are exercised frequently to ensure that risks are kept to an absolute minimum in the unlikely event of a major incident.

In accordance with these policies, our safety alarms are tested on a regular and routine basis. On the Wilton and Billingham sites this test is every Tuesday morning between 9 am and 10 am.

Throughout the calendar we have highlighted the dates and times of these tests during 2021. Should you hear this on-site alarm at any other time, be informed of an incident or simply suspect that one might have occurred, please follow the safety advice below as a precautionary measure until you receive further information.

SAFETY ADVICE

- Go immediately into a house or building.
- Close all windows and doors.
- Switch off ventilation and air conditioning systems.
- Stay indoors and listen to BBC Tees (95FM) and Zetland FM (105FM) for further information. Monitor official social media accounts, particularly on Zetland FM. BBC TV and ITV may also provide up to date information.
- Please stay calm and co-operate fully with any instructions given by the emergency services.
- Remain indoors until the incident is over.

Be assured that the professional expertise of all the emergency services is always available, with the back-up support of the local authorities

YOUR SAFETY IS OUR PARAMOUNT CONCERN

If you smell gas or are worried about gas safety, call 0800 111 999 at any time of the day or night.

TO ALL OUR FRIENDS AND NEIGHBOURS WELCOME TO THE 32ND COMMUNITY CALENDAR

Few people will lament the passing of 2020. It has been a year like no other and one in which the communities around the main industrial sites on Teesside have had to make all kinds of sacrifices and adjustments to cope with the problems caused by the coronavirus pandemic.

We are more grateful than ever therefore to the schools who have entered this year's Community Calendar competition. It is completely understandable that – as they were closed for a significant part of the year – not all schools have been able to take part as they fought to catch up with the lost months of learning. For that reason we've included some pictures from a few of our past winners to make you smile.

What hasn't changed has been the quality of the work from the young people who entered based on a 2021 theme that wrote itself: "Things I've learnt in the past year."

Thanks also to the many companies who support the Calendar each year.

The twelve showing true community spirit and commitment this year are: SABIC UK Petrochemicals, Huntsman Polyurethanes, Ensus UK, Alpek Polyester UK, Anglo American, Suez Recycling and Recovery UK, Enva Wood Recycling, RWE/Sofia Offshore Wind Farm, CF Fertilisers, Lucite International, Falck Fire

Services, Inter Terminals. The Calendar has, as always, been produced by the team at Sembcorp Energy UK.

The Calendar is distributed free to around 20,000 households closest to the Wilton, Billingham and North Tees manufacturing sites and the feedback received each year confirms its continued popularity.

It also includes practical actions to be taken in the unlikely event of a major emergency at any of the sites that might require a response by the neighbouring community. Each month also displays the times of the weekly plant and site alarm tests. Additional quarterly site alarm tests are also included. We appreciate that our alarms can be audible to people living nearby.

We hope you will find the Calendar useful and display it in a prominent place in your home throughout 2021.

On behalf of all the employees across the sites, please accept our best wishes for a Merry Christmas and we hope you have a happy New Year.

Andy Koss
Head, Sembcorp Energy UK
